## EDUCATION

**Student at University Of Ghana, Legon**

*BSc. Computer Science*

Level 200

### Relevant Courses

DCIT201 Object Oriented Programming

DCIT208 Software Engineering

DCIT204 Data Structures and Algorithms I

## SKILLS

HTML

CSS

JavaScript

TypeScript

ReactJS

NextJs

ExpressJs

## EXPERIENCE

FrontEnd Engineer Intern

As a Frontend Engineer Intern at Fihankra Comtech LLC (March–May 2024), I focused on building responsive and visually appealing user interfaces using React.js, TypeScript, Tailwind CSS, and Framer Motion. My work involved optimizing performance, implementing reusable component-based architectures, and ensuring smooth, intuitive user experiences. I collaborated closely with designers, backend developers, and project managers to develop scalable solutions and integrate RESTful APIs efficiently. This internship strengthened my frontend development skills and kept me current with modern web technologies like Zod for validation and seamless UI animations

## LANGUAGES

English and Ewe

## PROJECTS

### Personal Portfolio website

Created a website to show my skills using NextJs

<https://hubert-zonyra.netlify.app/>

### Ecommerce Website

Having completed the Ultimate Next.js course, I have gained comprehensive expertise in full-stack web development, specifically in building production-grade e-commerce applications. This course equipped me with over 25 hours of in-depth training, where I mastered cutting-edge technologies such as Next.js, Stripe for secure payment processing, and

Tailwind CSS for rapid UI development. I successfully implemented advanced features like AI-powered search with Algolia, authentication using Next Auth V5, and efficient state management with Zustand. My hands-on experience includes developing an intuitive admin dashboard and a seamless front-end shopping experience, demonstrating my ability to integrate modern best practices and deliver high-quality, scalable web solutions.
